Yuanhang Zhou

zhouyh1999@gmail.com · (+86) 187-5188-4216 ·

Research Interests

Blockchain: Blockchain Application, Security and Privacy, Applied Cryptography
Crowdsensing: Incentive Mechanism, Optimization

Education

Southeast University 2021.9 – 2024.6

Master of Engineering Cyberspace Security Advisor: **Fei Tong**
GPA: 90.4/100 Ranking 14 (<4%)

Nanjing University of Posts and Telecommunication (NJUPT) 2017.9 – 2021.6

Bachelor of Engineering Information Security Advisor: **Jia Xu**
GPA: 3.94/5 Ranking 14 (Elite class)

Employment

Southern University of Science and Technology (SUSTech) 2023.6 – 2023.10

Visiting Student Department of Computer Science and Engineering Advisor: **Jianyu Niu**

Honors

Outstanding Graduate, *Southeast University* 2024
National Scholarship, *Ministry of Education* 2023
Pacemaker to Merit Student, *Southeast University* 2023
National Scholarship, *Ministry of Education* 2022
"Huawei Cup" 1st Network Security Innovation Competition, Third Prize 2022
Second Class Postgraduate Academic Scholarship, *Southeast University* 2022
First Class Postgraduate Academic Scholarship, *Southeast University* 2021
Excellent Graduation Thesis, *NJUPT* 2021

Unpublished Research

- **Yuanhang Zhou**, Shubo Peng, Hanzheng Lyu, et al., "KLOTSKI: Towards Consensus Enabled Collaborative Vehicles in Intelligent Transportation," submitted to *IEEE Transactions on Intelligent Transportation Systems (TITS)*, Under review.
- Mohan Yu, **Yuanhang Zhou**, Fei Tong, et al., "OUTTASKER: Enabling Secure Outsourced Computation Transactions via Blockchain," submitted to *IEEE Transactions on Information Forensics & Security (TIFS)*, Under review.
- Mohan Yu, Fei Tong, **Yuanhang Zhou**, et al., "SPOE: Scaling Blockchain via Secure and Practical Off-chain Execution," submitted to *IEEE Transactions on Information Forensics & Security (TIFS)*, Under review.
- "Towards Efficient, Robust, and Privacy-preserving Incentives for Crowdsensing via Blockchain," Under research.

Authorized Chinese Patents

- "A Privacy-preserving Incentive Mechanism Method for Crowdsensing based on Blockchain", *First Student Author*
- "A Bi-objective Incentive Mechanism Method for Crowdsensing", *First Student Author*
- "A Bi-objective Crowdsensing System and Incentive Method", *First Student Author*
- "An Anomaly User Detection Method for Temporal and Spatial Mobile Crowdsensing", *Third Author*
- "A Topic-aware Task Diffusion Method and Incentive for Crowdsourcing", *Third Author*

Research Experience

Confidential Smart Contracts *Southeast University* 2023.11 – 2024.6

- Realize blockchain scaling through off-chain computation
- Design reliable blockchain system utilizing trusted execution environment

Dynamic Consensus for Intelligent Transportation *SUSTech* 2023.6 – 2024.1

- Design and realize transportation decision for intelligent transportation (V2X)

Incentive Design for Crowdsensing via Blockchain *Southeast University* 2021.9 – 2023.5

- Realize a decentralized crowdsensing system based on blockchain
- Design privacy-preserving incentive mechanisms under blockchain architecture

Crowdsourcing Task Diffusion based on Social Network *NJUPT* 2020.6 – 2021.6

- Realize the crowdsourcing task diffusion based on social network for influence maximization

Robust Incentive Mechanism Design for Crowdsensing *NJUPT* 2019.4 – 2020.5

- Design robust incentive mechanisms for crowdsensing system

Other Experience

TOEFL Score: 102 (R28 L27 S22 W25)

Reviewer

IEEE/CIC International Conference on Communications in China (ICCC)
Peer-to-Peer Networking and Applications (PPNA)

Academic Report *Beijing Institute of Technology* 2022.11

Long Report, 2nd Distributed Control, Optimization and Security, Zhizhen Academic Forum for Postgraduate

Project Director *Southeast University* 2022.10 – 2023.5

Student Research Training Program and *Student Information Security Contest*

Teaching Assistant *Southeast University* 2021.9 – 2022.2

Principles of Computer Composition
